Subject: Review of Ag/Urban Workplan Draft of April 11, 1997

Sorry I took so darn long to review the document. I have no specific comments; however a general observation is that it reads as if the Ag/Urban group will duplicate the CALFED process almost exactly. As you know, CALFED has heard criticism along the lines that Ag/Urban has established a separate process that does not benefit from the full stakeholder and public involvement that is embodied in the CALFED process. I would suggest the group consider revamping the document in a manner that is sensitive to this concern.

I'll be worrying a lot about this while I'm up in Oregon doing vacation from Monday, May 12 through Monday, May 26. Let's plan to meet immediately on my return.
